

ELAPRO Chips

TD341 Technical Data Sheet

Areas of application

ELAPRO Chips are added to ELAPRO Topcoat for decoration.

Delivery form

PE bag: 1 kg

Tools

Processing: By hand, blowgun

Compatible system components

- ELAPRO Topcoat

Processing

ELAPRO Chips are added evenly to the ELAPRO Top 1k-SIL coating while it is still wet. The different colours can be used individually or mixed. The chips must be spread at once without breaks from work. If necessary, use spiked slippers to obtain a smooth result. No sealing required afterwards.

ELAPRO Chips must not be mixed with materials from other systems. They are only suitable for use with ELAPRO Top 1k-SIL.

Material properties

System basis	PVA acrylic
Form	Solid
Size [Ø]	Approx. 0,5 mm / 1 mm / 3 mm / 5 mm
Standard colours	Black, grey, white

Processing-relevant data

Consumption	30-80 g/m ²
Slip classes according to DIN EN 16165:2021-12 Annex B	
ELAPRO Chips min.	70 g/m ² R10

Storage and shelf life

Protect against soiling. 36 months when stored in a dry, frost-free and cool place.

Disposal

Product residues:	AVV 04 02 21
Packaging:	AVV 15 01 02

Note: Product residues and packaging must be disposed of properly in compliance with the European List of Waste Materials (AVV/formerly EAK).

General information

All information provided here serves only to describe the material and is based on tests and results achieved in practical use. As a result, no liability can be accepted for its accuracy or completeness. Advice is provided to the best of our knowledge and does not release users from testing by accredited specialists such as planners and experts. Colour deviations or changes do not affect the products' technical parameters. The times specified are reduced at higher ambient and surface temperatures and extended at lower ambient and surface temperatures. All data is subject to changes without notice. The data sheet shall cease to be valid 5 years after publication. The latest version must always be used. It is available in the download area on our website www.elapro.de. The details and recommendations in this product information correspond to the current state of our knowledge and are provided to inform the buyer. They do not release the buyer from assessing the products for suitability and use on the respective substrate. The products described must only be processed as a system with the system components mentioned here. We guarantee flawless quality within the framework of our terms of delivery and payment.

Safety instructions

All safety instructions on the containers, the technical product information and the safety data sheets and relevant local, national and EU regulations must be complied with. Personal occupational health and safety must be observed.
